Carriage of Unaccompanied Minors

Nexus Airlines ('We, our, us or Company') aims to ensure travelling alone is a safe and exciting experience for your child. Passenger safety and comfort is important to us, and our team will do everything possible to ensure Unaccompanied Minors ('UMs') have an enjoyable and seamless experience when flying with us. A child (or children) between the ages outlined below who is/are not accompanied by a person 15 years of age or older, will travel as a UM:

- 5 - 11 years of age (who is not yet 12) on domestic flights; and/or
- 12 - 15 years of age (inclusive) on domestic flights whose parent or guardian have requested that they travel as an Unaccompanied Minor.

Children Travelling with Medication

For UMs who travel with medication, food allergies or special dietary requirements, guardians must notify the Company of the UMs requirements at the time of booking.

Medication must be carried in carry-on luggage.

A letter from the UMs doctor must be organised if any medication needs to be carried on a flight. This may include carrying an Adrenalin Auto Injector or Ventolin inhaler. The letter from the doctor must:

- Be dated within two years of the date of travel;
- Be written in English;
- Confirm that the UM can identify the need for the medication; and
- Confirm that the child can self-administer the medications required.

If we do not receive a letter from the UM's doctor and/or if the medication is not available to be carried in carry-on luggage, the child cannot travel unaccompanied and must be accompanied by a person aged 15 years or older who is willing and able to administer the medication, if required, and the medication must be available to be carried in carry-on luggage.

Medication is defined as any medicine from a doctor or dentist (on prescription) and from a pharmacist or over the counter. Examples of over-the-counter medication may include Panadol, antihistamines and hydrocortisone creams and ointments.
